SUMMARY:

Full-Stack (MERN) Developer with experience building responsive, scalable web applications using React, Node.js, Express.js, and MongoDB. Strong in API development, frontend-backend integration, and performance optimization. Passionate about delivering real-world solutions through clean architecture and modern JavaScript frameworks.

WORK EXPERIENCE:

Full Stack Dev.

January 2025 – Sept 2025

Pantech.ai, Ashok Nagar, Chennai

(9 months)

- Designed and implemented full-stack features using React, Node.js, Express, and MongoDB, including dashboards and analytics workflows.
- Built scalable REST APIs and integrated them with frontend components for seamless data visualization and user interaction.
- Collaborated on frontend-backend integration, ensuring clean architecture, reusable components, and maintainable codebases.

Data Science Intern

June 2024 – Nov 2024

IStop.ai, Bengaluru, Karnataka

(6 months)

- Built a **loan amount prediction system** using multiple regression models (Linear, XGBoost, Random Forest) to select the best-performing one achieving **90%+ accuracy**.
- Performed full **EDA using Python, SQL, and Pandas** to analyze income, credit history, and spending behaviour for better feature insights.
- Applied PCA to improve model performance and **speed up training by 45%**, and created cluster visualizations and dashboards for insights.

PROJECTS:

JustDiet – Diet Appointment & Nutrition Platform

Link: <https://justdiet.vercel.app>

- Built a web platform to **book diet consultations**, explore diet plans, calculate **BMI**, and view user reviews.
- Developed responsive UI using **React and JavaScript**, ensuring smooth navigation and user-friendly workflows.

FlashChat – Real-Time Temporary Chat Rooms

Link: <https://flashchat-tsyz.onrender.com/>

- Built instant chat rooms using **Socket.IO + Node.js + React**.
- Implemented **real-time next-word prediction using NLP modeling**.
- Join by Room ID, connect with friends instantly. Fast & private messages vanish when the room closes.

SKILLS:

Frontend: HTML/ CSS, Tailwind, JavaScript, React

Backend: Node.js, Express.js, REST APIs, Python (FastAPI)

Databases: MongoDB, SQL

Tools & DevOps: Git, CI/CD Pipelines, Nginx, Vercel, Netlify

Education:

Bachelor of Computer Applications (BCA)

Rashtrasant Tukadoji Maharaj Nagpur University (RTMNU)

CGPA: **8.0**

Certification:

JavaScript (Intermediate) – HackerRank

Generative AI Studio – Google Cloud
